I. Indications for Transfusion

A) Red Cells

- 1) "Perioperative Red Cell Transfusion." National Institutes of Health, Consensus Development Conference Statement. June 27-29, 1988.
- 2) Murphy MF, Wallington TB, Kelsey P, Boulton F, Bruce M, Cohen H, Duguid J, Knowles SM, Poole G, Williamson LM; British Committee for Standards in Haematology, Blood Transfusion Task Force. "Guidelines for the clinical use of red cell transfusion." British Journal of Haematology. 2001, 113, pp. 24-31.
- 3) Murphy MF, Atterbury CLJ, Chapman JF, Lumley JS, McClelland DBL, et al. "The administration of blood and blood components and the management of transfused patients." Transfusion Medicine. 1999; Volume 9, pp. 227-239.
- 4) "Guidelines for the estimation of feto-maternal haemorrhage." Transfusion Medicine. 1999; Volume 9, pp. 87-92.
- 5) Canadian Paediatric Society (CPS). "Red blood cell transfusions in newborn infants: Revised guidelines." Paediatrics & Child Health. 2002; 7(8): pp. 553-558.
- 6) M. Garrioch, J. Sandbach, E. Pirie, A. Morrison, A. Todd and R. Green. "Reducing red cell transfusion by audit, education and a new guideline in a large teaching hospital." Transfusion Medicine. 2004;14:25.
- 7) "Transfusion Guidelines for Neonates and Older Children." British Journal of Haematology. 2004, 124: pp. 433-453.
- 8) Covin R, O'Brien M, Grunwald G, Brimhall B, Sethi G, Walczak S, Reiquam W, Rajagopalan C, Shroyer AL, "Factors Affecting Transfusion of Fresh Frozen Plasma, Platelets, and Red Blood Cells During Elective Coronary Artery Bypass Graft Surgery." Arch Pathol Lab Med 2003 Vol 127, April, pp. 415-423.
- 9) Strauss, RG. "Controversies in the Management of the Anemia of Prematurity Using Single-Donor Red Blood Cell Transfusions and/or Recombinant Human Erythropoietin." Transfusion Medicine Reviews. 2006, Vol 20:1, pp. 34-44.
- 10) Rock G, Poon A, Haddad S, Romans R, St. Louis P. "Nutricel as an Additive Solution for Neonatal Transfusion." Trans Sci. 1999:20, pp. 29-36.
- 11) Strauss RG. "Blood Banking Issues Pertaining to Neonatal Red Blood Cell Transfusions." Transfusion Science. 1999:21, pp. 7-19.

- 12) Roseff SD, Luban NLC, Manno CS. "Guidelines for Assessing Appropriateness of Pediatric Transfusion." Transfusion. 2002;42, pp. 1398-1413.
- 13) Gould Halme D, Kessler DA. "FDA Regulation of Stem-Cell-Based Therapies." NEJM. 2006;355(16):1730-1735.
- 14) Stainsby D, MacLennan S, Thomas D, Isaac J, Hamilton PJ. "Guidelines on the management of massive blood loss." Br J Haematol. 2006;135:634-641.

B) Plasma

- 1) "Fresh Frozen Plasma: Indications and Risks." National Institutes of Health, Consensus Development Conference Statement. June 27-29, 1988.
- 2) Fresh-Frozen Plasma, Cryoprecipitate and Platelets Administration Practice Guideline Development Task Force of the College of American Pathologists. "Practice Parameter for the Use of Fresh-Frozen Plasma, Cryoprecipitate and Platelets." JAMA. 1994, 271: pp. 777-781.
- 3) "Guidelines for the use of fresh frozen plasma." Transfusion Medicine. 1992, 2: pp. 57-63.
- 4) Triulzi, DJ. "The art of plasma transfusion therapy." Transfusion. 2006;46:1268-1270.

C) Cryoprecipitate

- 1) Fresh-Frozen Plasma, Cryoprecipitate and Platelets Administration Practice Guideline Development Task Force of the College of American Pathologists. "Practice Parameter for the Use of Fresh-Frozen Plasma, Cryoprecipitate and Platelets." JAMA. 1994, 271: pp. 777-781.

D) Cryo Poor Plasma

- 1) Teruya J, Styler M, Verde S, Topolsky D, Crilley P. "Questionable efficacy of plasma exchange for thrombotic thrombocytopenic purpura after bone marrow transplantation." J Clin Apheresis. 2001; 16(4), pp. 169-74. Review.

- 2) Zeigler ZR, Shadduck RK, Gryn JF, Rintels PB, George JN, Besa EC, Bodensteiner D, Silver B, Kramer RE; North American TTP Group. "Cryoprecipitate poor plasma does not improve early response in primary adult thrombotic thrombocytopenic purpura (TTP)." J Clin Apheresis. 2001; 16(1), pp. 19-22.
- 3) Douglas P. Blackall, Lynne Uhl, and Steven L. Spitalnik, for the Transfusion Practices Committee. "Cryoprecipitate-reduced plasma: rationale for use and efficacy in the treatment of thrombotic thrombocytopenic purpura." Transfusion. Volume 41, June 2001.

E) Platelets

- 1) "Platelet Transfusion Therapy." National Institutes of Health, Consensus Development Conference Statement. October 6-8, 1986.
- 2) "Guidelines for the Use of Platelet Transfusions." British Journal of Haematology. 2003; 122, pp. 10-23.
- 3) "Guidelines for Platelet Transfusion." Transfusion Medicine. 1992; 2, pp. 311-318.
- 4) Tinmonth AT, Freedman J. "Prophylactic Platelet Transfusions: Which Dose is the Best Dose? A Review of the Literature." Transfus Med Rev. 2003; 17, pp. 181-93.

II. Adverse Reactions Associated with Transfusion

A) General

- 1) Sazama K, et al. "Practice Parameter for the Recognition, Management, and Prevention of Adverse Consequences of Blood Transfusion." Arch Pathol Lab Med. 2000; 124, pp. 61-70.
- 2) Lee D. "Perception of Blood Transfusion Risks." Transfusion Medicine Reviews. 2006; 20, pp 141-148.
- 3) Newman B. "Iron depletion by whole-blood donation harms menstruating females: The current whole-blood-collection paradigm needs to be changed." Transfusion. 2006;46:1667-1681.
- 4) Stainsby D, Jones H, Asher D, Atterbury C, et al. "Serious Hazards of Transfusion: A Decade of Hemovigilance in the UK." Trans Med Rev. 2006;20(4):273-282.

B) Transfusion Related Acute Lung Injury

- 1) ‡ Webert KE, Blajchman MA. "Transfusion-related acute lung injury." Transfusion Medicine Reviews. 2003;17, pp. 252-262.
- 2) § Popovsky MA, Davenport RD. "Transfusion-related acute lung injury: femme fatale?" Transfusion. 2001;41, pp. 312-315 (editorial).
- 3) § Palfi M, Berg S, Ernerudh J, Berlin G. "A randomized controlled trial of transfusion-related acute lung injury: is plasma from multiparous blood donors dangerous?" Transfusion. 2001;41, pp. 317-322.
- 4) Densmore TL, Goodnough LT, Ali S, Dynis M, Chaplin H. "Prevalence of HLA sensitization in female apheresis donors." Transfusion 1999;39, pp.103-106.
- 5) Christopher C. Silliman, Daniel R. Ambruso, and Lynn K. Boshkov. "Transfusion-related acute lung injury." Blood. 15 March, 2005, Volume 105, Number 6.
- 6) Kleinman S, Caulfield T, Chan P, et al. "Towards an understanding of transfusion-related acute lung injury: Statement of a consensus panel." Transfusion. 2004: 44, pp.1774-89
- 7) Goldman M, Webert KE, Arnold DM, Freedman J, Hannon J and Blajchman MA. "Proceedings of a Consensus Conference: Towards an Understanding of TRALI." Trans Med Rev. 2005: 19, pp. 2-31
- 8) Toy P, Popovsky M, Abraha E, et al. "Transfusion-related acute lung injury: Definition and review." Crit Care Med. 2005;33:pp. 721-6
- 9) Bux J. "Transfusion-related acute lung injury (TRALI): a serious adverse event of blood transfusion." Vox Sang. 2005; 89:1-10.
- 10) Holness L, Knippen MA, Simmons L, and Lachenbruch PA. "Fatalities Caused by TRALI." Transfusion Medicine Reviews. Vol 18, No 3 (July), 2004: pp 184-188.
- 11) Silliman CC, Boshkov LK, Mehdizadehkashi Z, Elzi DJ, Dickey WO, et al. "Transfusion-related acute lung injury: epidemiology and a prospective analysis of etiologic factors." Blood. 2003;101(2):454-462.
- 12) Kleinman S. "A perspective on transfusion-related acute lung injury two years after the Canadian Consensus Conference." Transfusion. 2006;46:1465-1468.
- 13) Triulzi DJ. "Transfusion-Related Acute Lung Injury: An Update." Hematology. 2006:497-501.

C) Febrile, Non-Hemolytic Reactions

- 1) Yazer MH, Podlosky L, Clarke G, Nahirniak SM. "The effect of prestorage WBC reduction on the rates of febrile nonhemolytic transfusion reactions platelet concentrates and RBC." Transfusion. 2004 Jan;44(1):10-5.
- 2) Perrotta PL, Snyder EL. "Non-infectious complications of transfusion therapy." Blood Rev. 2001 Jun;15(2):69-83. Review.

D) Cytokine Mediated Reactions

- 1) Muller-Steinhardt M, Kirchner H, Kluter H. "Impact of storage at 22 degrees C and citrate anticoagulation on the cytokine secretion of mononuclear leukocytes." Vox Sang. 1998;75(1):12-7.
- 2) Snyder EL. "The role of cytokines and adhesive molecules in febrile non-hemolytic transfusion reactions." Immunol Invest. 1995 Jan-Feb;24 (1-2):333-9. Review.

E) Post Transfusion Purpura

- 1) Abramson N, Eisenberg PD, Aster RH. "Post-Transfusion Purpura: Immunologic Aspects and Therapy." NEJM. 1974;291:1163-6.
- 2) Welling KL, Taaning E, Lund BV, Rosenkvist J, Heslet L. "Post-transfusion purpura (PTP) and disseminated intravascular coagulation (DIC)." Eur J Haematol. 2003 Jul;71(1):68-71.
- 3) Janatpour K, Holland PV. "Noninfectious serious hazards of transfusion." Curr Hematol Rep. 2002 Nov;1(2):149-55. Review.

F) Delayed Hemolytic Transfusion Reactions

- 1) Solanki D, and McCurdy PR. "Delayed hemolytic transfusion reactions. An often-missed entity." JAMA. 1978 Feb 20;239(8):729-31.
- 2) Talano JA, Hillery CA, Gottschall JL, Baylerian DM, and Scott JP. "Delayed hemolytic transfusion reaction/hyperhemolysis syndrome in children with sickle cell disease." Pediatrics. 2003 Jun;111(6 Pt 1):e661-5.

- 3) Pineda AA, Vamvakas EC, Gorden LD, Winters JL, Moore SB. "Trends in the incidence of delayed hemolytic and delayed serologic transfusion reactions." Transfusion. 1999 Oct;39(10):1097-1103. Erratum in: Transfusion. 2000 Jul;40(7):891.

G) Transfusion Related Immunomodulation (TRIM)

- 1) Blajchman MA. "Transfusion immunomodulation or TRIM: what does it mean clinically?" Hematology. 2005; 10 Suppl 1:208-14
- 2) Vamvakas EC. "Meta-analysis of randomized controlled trials investigating the risk of postoperative infection in association with white blood cell-containing allogeneic blood transfusion: the effects of the type of transfused red blood cell product and surgical setting." Transfus Med Rev. 2002 Oct;16(4):304-14.
- 3) Vamvakas EC. "WBC-containing allogeneic blood transfusion and mortality: a meta-analysis of randomized controlled trials." Transfusion. 2003;43:963.
- 4) Blumberg N. "Deleterious clinical effects of transfusion immunomodulation: proven beyond a reasonable doubt." Transfusion. 2005;45:33S-40S.
- 5) Vamvakas EC. "Deleterious clinical effects of transfusion immunomodulation: proven beyond a reasonable doubt." Letter to Editor. Transfusion. 2006;46:492-494.

H) Transfusion associated graft vs. host disease and donor leukocyte

- 1) Lee T-H, Paglioni T, Ohto H, Holland PV, Busch MP. "Survival of Donor Leukocyte Subpopulations in Immunocompetent Transfusion Recipients: Frequent Long-Term Microchimerism in Severe Trauma Patients." Blood. 1999;93:3127-39.
- 2) Lee T-H, Paglioni T, Utter G, Chafets D, Gosselin RC, Reed W, Owings JT, Holland PV, Busch MP. "High-Level Long-Term White Blood Cell Microchimerism after Transfusion of Leukoreduced Blood Components to Patients Resuscitated after Severe Traumatic Injury." Transfusion. 45:1280-90, 2005.
- 3) Kruskal MS, Lee T-H, Assmann SF, Laycock M, Kalish LA, Ledermann M, Busch MP, for the Viral Activation Transfusion Study. "Survival of Transfused Donor White Cells in HIV-Infected Recipients." Blood. 98:272-279, 2001.

III. Transfusion Associated Infections

A) General

- 1) Wang B, Schreiber GB, Glynn SA, Nass CC, Smith JW, Higgins MJ, Hutching ST, Wright DJ, McEntire RL, Murphy EL; Retrovirus Epidemiology Donor Study. "Prevalence of transfusion-transmissible viral infections in first-time US blood donors by donation site." Transfusion. 2003 Jun;43(6):705-12.
- 2) Goodnough LT, Shander A, Brecher ME. "Transfusion medicine: looking to the future." Lancet. 2003 Jan 11;361(9352):161-9. Review.
- 3) Busch MP, Kleinman SH, Nemo GJ. "Current and emerging infectious risks of blood transfusions." JAMA. 2003 Feb 26;289(8):959-62.
- 4) Jackson BR, Busch MP, Stramer SL, AuBuchon JP. "The cost-effectiveness of NAT for HIV, HCV, and HBV in whole-blood donations." Transfusion. 2003 Jun;43(6):721-9.
- 5) Stramer SL, Glynn SA, Kleinman SH, Strong DM, Caglioti S, Wright DJ, Dodd RY, Busch MP, for the NHLBI Nucleic Acid Test Study Group. "Detection of HIV-1 and HCV Infections Among Antibody-Negative Blood Donors by Nucleic Acid-Amplification Testing." N Engl J Med. 351:760-8, 2004.
- 6) Busch MP, Glynn SA, Stramer SL, Strong DM, Caglioti S, Wright DJ, Pappalardo B, Kleinman SH, for the NHLBI-REDS NAT Study Group. "A New Strategy for Estimating Risks of Transfusion-Transmitted Viral Infections Based on Rates of Detection of Recently Infected Donors." Transfusion. 45:254-64, 2005.

B) Hepatitis B (HBV)

- 1) Ganem D, Prince AM: "Hepatitis B Virus Infection—Natural History and Clinical Consequences." NEJM. 2004;350:1118-29.
- 2) Kleinman SH, Kuhns MC, Todd DS, Glynn SA, McNamara A, DiMarco A, Busch MP, for the Retrovirus Epidemiology Donor Study. "Frequency of HBV DNA Detection in US Blood Donors Testing Positive for anti-HBc: Implications for Transfusion Transmission and Donor Screening." Transfusion. 43:696-704, 2003.
- 3) Biswas R, Tabor E, Hsia CC, Wright DJ, Laycock ME, Fiebig EW, Peddada L, Smith R, Schreiber GB, Epstein JS, Nemo GJ, Busch MP. "Comparative Sensitivity of HBV NATs and HBsAg Assays for Detection of Acute HBV Infection." Transfusion. 43:788-98, 2003.

C) HTLV

- 1) Manns A, Wilks RJ, Murphy EL, Haynes G, Figueroa JP, Barnett M, Hanchard B, Blattner WA. "A prospective study of transfusion transmission of HTLV-I and risk factors associated with seroconversion." Int J Cancer. 1992; 51:886-91.
- 2) Manns A, Murphy EL, Wilks R, Haynes G, Figueroa JP, Hanchard B, Barnett M, Drummond J, Waters D, Cerney M, Seals JR, Alexander SS, Lee H, Blattner WA. "Detection of early HTLV-I antibody patterns during seroconversion among transfusion recipients." Blood. 1991; 77:1-10.
- 3) Fernando A Proietti, Anna Barbara F Carneiro-Proietti, Bernadette C Catalan-Soares and Edward L Murphy. "Global epidemiology of HTLV-I infection and associated diseases." Oncogene. (2005) 24, 6058–6068.
- 4) Diana F. Roucoux and Edward L. Murphy. "The Epidemiology and Disease Outcomes of Human T-Lymphotropic Virus Type II." AIDS Reviews. 2004;6: 145-155.

D) Hepatitis C (HCV)

- 1) Operskalski EA, Mosley JW, Tobler LH, Fiebig EW, Nowicki MJ, Mimms LT, Gallarda J, Phelps BH, Busch MP; Transfusion-Transmitted Viruses Study; Retrovirus Epidemiology Donor Study. "HCV viral load in anti-HCV-reactive donors and infectivity for their recipients." Transfusion. 2003 Oct;43(10):1433-41.
- 2) Dore GJ, Freeman AJ, Law M, Kaldor JM. "Is severe liver disease a common outcome for people with chronic hepatitis C." J Gastroenterol Hepatol. 2002 Apr;17(4):423-30. Review.
- 3) Murphy EL, Bryzman SM, Glynn SA, Ameti DI, Thomson RA, Williams AE, Nass CC, Ownby HE, Schreiber GB, Kong F, Neal KR, Nemo GJ. "Risk factors for hepatitis C virus infection in United States blood donors. NHLBI Retrovirus Epidemiology Donor Study (REDS)." Hepatology. 2000 Mar;31(3):756-62
- 4) Busch MP. "Insights into the Epidemiology, Natural History and Pathogenesis of Hepatitis C Virus Infection from Studies of Infected Donors and Blood Product Recipients." Transfusion Clinique et Biologique. 8:200-206, 2001.
- 5) Glynn SA, Wright DJ, Kleinman SH, Hirschorn D, Tu Y, Heldebrant C, Smith R Giachetti C, Gallarda J, Busch MP. "Dynamics of Viremia in Early Hepatitis C Virus Infection." Transfusion. 45:994-1002, 2005

- 6) Gasink LB, Blumberg EA, Localio AR, Desai SS, et al. "Hepatitis C Virus Seropositivity in Organ Donors and Survival in Heart Transplant Recipients." JAMA. 2006;296:1843-1850.
- 7) Mosley JW, Operskalski EA, Tobler LH, Andrews WW, Phelps B, Dockter J, Giachetti C, Busch MP. "Viral and Host Factors in Early Hepatitis C Virus Infection." Hepatology. 42:86-92, 2005.
- 8) Busch MP, Glynn SA, Stramer S, Orland J, Murphy EL, Wright DJ, Kleinman S, NHLBI Retrovirus Epidemiology Donor Study (REDS) Group. "Correlates of hepatitis C virus (HCV) RNA negativity among HCV-seropositive blood donors." Transfusion. 46: 469-475, 2006

E) Human Immunodeficiency Virus (HIV-1/2)

- 1) Wang B, Schreiber GB, Glynn SA, Nass CC, Smith JW, Higgins MJ, Hutching ST, Wright DJ, McEntire RL, Murphy EL; Retrovirus Epidemiology Donor Study. "Prevalence of transfusion-transmissible viral infections in first-time US blood donors by donation site." Transfusion. 2003 Jun;43(6):705-12.
- 2) Goodnough LT, Shander A, Brecher ME. "Transfusion medicine: looking to the future." Lancet. 2003 Jan 11;361(9352):161-9. Review
- 3) Jackson BR, Busch MP, Stramer SL, AuBuchon JP. "The cost-effectiveness of NAT for HIV, HCV, and HBV in whole-blood donations." Transfusion. 2003 Jun;43(6):721-9.
- 4) Fiebig EW, Wright DJ, Rawal BD, Garrett PE, Schumacher RT, Peddada L, Heldebrant C, Smith R, Conrad A, Kleinman SH, Busch MP. "Dynamics of HIV Viremia and Antibody Seroconversion in Plasma Donors: Implications for Diagnosis and Staging of Primary HIV Infection." AIDS. 17:1871-9, 2003.

F) Hepatitis A

- 1) Diwan AH, Stubbs JR, Carnahan GE. "Transmission of hepatitis A via WBC-reduced RBCs and FFP from a single donation." Transfusion. 2003 Apr;43(4):536-40.

G) West Nile Virus (WNV)

- 1) Centers for Disease Control and Prevention (CDC). "Update: West Nile Virus Activity --- United States, January 1 – November 7, 2006." Morbidity and Mortality Weekly Report. Last reviewed 11/8/06.
- 2) Dodd RY. "Emerging infections, transfusion safety, and epidemiology." N Engl J Med. 2003 Sep 25;349(13):1205-6. Epub 2003 Sep 18.
- 3) Jeha LE, Sila CA, Lederman RJ, Prayson RA, Isada CM, Gordon SM. "West Nile virus infection: a new acute paralytic illness." Neurology. 2003 Jul 8;61(1):55-9. Review.
- 4) Busch MP, Caglioti S, Robertson EF, McAuley JD, Tobler LH, Kamel H, Linnen JM, Shyamala V, Tomasulo PA, Kleinman SH. "Screening the Blood Supply for West Nile Virus RNA by Nucleic Acid Amplification Testing." N Engl J Med. 353:460-7, 2005.
- 5) Kleinman S, Glynn SA, Busch M, Todd D, Powell L, Pietrelli L, Nemo G, Schreiber G, Bianco C, Katz L, for the NHLBI Retrovirus Epidemiology Study (REDS). "The 2003 West Nile Virus United States Epidemic: The America's Blood Centers Experience." Transfusion. 45:469-479, 2005.
- 6) Custer B, Tomasulo PA, Murphy EL, Caglioti S, Harpool D, McEvoy P, Busch MP. "Triggers for Switching from Minipool Testing by Nucleic Acid Technology to Individual-Donation Nucleic Acid Testing for West Nile Virus: Analysis of 2003 Data to Inform 2004 Decision Making." Transfusion. 44:1547-54, 2004.
- 7) Custer B, Busch MP, Marfin A, Petersen LR. "The Cost Effectiveness of Screening the U.S. Blood Supply for West Nile Virus." Annals Int Med. 2005; 143:486-92.
- 8) Pealer L. N., Marfin A. A., Petersen L. R., Lanciotti R. S., Page P. L., Stramer S. L., Stobierski M. G., Signs K., Newman B., Kapoor H., Goodman J. L., Chamberland M. E., the West Nile Virus Transmission Investigation Team. "Transmission of West Nile Virus through Blood Transfusion in the United States in 2002." N Engl J Med. 2003; 349:1236-1245, Sep 25, 2003.

H) Bacterial Contamination
